Professional Experience

Senior Project Manager Jul 2026 - Oct 2026
STC Bank - Riyadh, Saudi Arabia

- Led PwC Cybersecurity Assessment remediation, coordinating cross-functional teams to drive corrective actions, governance, risk mitigation, and timely closure of identified gaps.
- Coordinate cross-functional delivery across Cybersecurity, SOC, IT and business teams, aligning stakeholders, ownership, priorities and commitments.
- Lead governance, RAID / remediation tracking, executive status reporting, escalation and follow-up to support timely resolution of delivery concerns.

Key Projects:
· SAMA Compliance Project.

Senior Project Manager Nov 2025 - May 2026
Prosecure - Riyadh, Saudi Arabia

- Directed complex technology and cybersecurity programs across data centers, enterprise networks, WAF, DLP, VAPT, SOC and EDR solutions.
- Developed and tracked milestones, risks, issues and dependencies across multidisciplinary technical teams, vendors and stakeholders.
- Redesigned the Engineering Team workflow, clarifying delivery stages, ownership, handoffs and escalation across technical teams.
- Initiated the shift from manual Excel-based tracking to data-driven reporting by personally developing a Power BI management dashboard.
- Extended the transformation toward an integrated operating model through cross-department workflow requirements and ERP vendor evaluation / selection.

Key Projects:
· Saudi Energy Company (Central Data Diode, Multi-Antivirus, OT Enhancement Control Centers & Internet Traffic Management).
· SPB (EDRM, Symantec & F5).
· Maaden (Tenable & Hirschmann Switches Replacement).

Senior Projects Manager Dec 2024 - Oct 2025
Infratech - Al Khobar, Saudi Arabia

- Led ICT infrastructure, network modernization and cybersecurity projects across enterprise and industrial environments.
- Coordinated multi-region delivery across the Middle East, Europe, East Asia and the Americas, aligning distributed teams, vendors and stakeholders across time zones and cultures.
- Managed procurement and vendor dependencies, assessed schedule / critical-path impacts, and drove escalation and mitigation for hardware and material delays.
- Prepared executive project-status reporting and coordinated cybersecurity, IT and compliance teams through implementation and handover.

Key Projects:
· SABIC (OT firewalls replacement, Digital Forensics & UTIMACO Solution).
· SATORP (Qualys VMDR Solution & Firewalls replacement).
· SANS (ISE & Load Balancer).

Projects Manager

SaharaNet - Riyadh, Saudi Arabia

Sep 2023 - Dec 2024

- Directed integrated ICT projects spanning MPLS, VPN, Internet, Azure, VPS, colocation, firewalls, email security and SSL.
- Managed budgets, schedules, project-cost tracking, vendor expenditure and financial control while coordinating cross-functional delivery.
- Managed client requirements and project workflows through CRM systems, maintaining stakeholder alignment and proactive cybersecurity risk mitigation.
- Applied structured risk management and security-awareness initiatives, reducing security incidents by 30%.

Key Projects:

- Boulevard HOH City (Low current system, IP phone system & DIA).
- Social Development Bank (Forti-NAC solution, GRC & VAPT).
- Fitness Time (Wireless infrastructure & DIA).

Technical Project Manager

FiberHome Telecommunication Technologies Co., Ltd - Amman, Jordan

Oct 2020 - Sep 2022

- Managed stakeholder requirements, project schedules, milestones, subcontractors, network O&M, emergency activities and change-control procedures.
- Monitored scope, cost, quality and delivery performance, escalating issues and coordinating resolution to protect agreed commitments.
- Supported project financial control through cost monitoring, resource / vendor coordination and delivery tracking.

Key Projects:

- Fibertech FTTH Project - Jordan.
- Paltel FTTH Project - Palestine.
- Supercell FTTH Project - Iraq.

Implementation Manager

Nokia Solutions & Networks - Amman, Jordan

Sep 2016 - Feb 2020

- Led large-scale network expansion delivery with 100+ direct team members, coordinating resources, subcontractors, suppliers, schedules, quality and acceptance.
- Tracked KPIs, daily plans, operational issues, PAC/FAC milestones, dependencies and implementation close-out.

Key Projects:

- Orange FTTH Project.
- Zain 4G Swap Project.

Project Manager

FirstLink for Communications - Amman, Jordan

Apr 2015 - Aug 2016

- Managed internal resources and third-party vendors to deliver multiple projects on time, within scope and within budget.
- Developed project plans, controlled scope / schedule / cost changes, measured performance and managed client and stakeholder relationships.

Key Projects:

- Orange Swap project.
- UMNIAH phase 11 & 12 project.

Transmission Team Leader

FirstLink for Communications - Tripoli, Libya

Apr 2014 - Mar 2015

- Led a 30+ transmission team across backbone and mobile projects in a high-risk operating environment, coordinating safe field delivery and continuity.

Key Projects:

- Al-Madar long haul project.
- Libya GSM swap project.
- Libya Wi-Max project.

BSS Engineer

ZTE Corporation - Amman, Jordan

Aug 2013 - Apr 2014

- Installed, commissioned and troubleshoot ZTE BTS/RRU equipment; performed pre/post-swap alarm testing and coordinated technical support.

Key Projects:

- UMNIAH RAN & MW swap project (North & East Area).

Telecom Implementation Engineer

UMNIAH - Amman, Jordan

Aug 2011 - Jul 2013

- Delivered telecom implementation activities including MW links, passive-DAS testing, site installation, supervision, testing, configuration, maintenance, acceptance and clearance.

Key Projects:

- UMNIAH 3G project.

Education

Telecom & Software Engineering

Al-Balqa'a Applied University - Salt, Jordan | 2006 - 2011
